《Outline of the Building》

[Total Floor Size] 26,789.43m²

[Floors] 15 floors on the ground, 1 floor basement

[Height] 73.0m (including the projection)

[Structure] Steel framework

(partly iron reinforced concrete, partly steel framework concrete)

User-friendly Office Building

Frequently utilized counters such as Citizen's Affairs Division (*Shimin Ka*), Health Insurance and Pension Division (*Hoken Nenkin Ka*) are integrated into the Citizen's Counters Center (the 1st and the 2nd floors). The municipal office building is designed for convenient use for all visitors, with the barrier free doorways and passages, multi-purpose toilets, and easy-to-see directories.

Environment-friendly Office Building

Designed with environment-friendly considerations, with solar power generation, natural ventilation, utilizing rainwater for flushing toilet and for sprinkling water for plants.

Disaster-resistant Municipal Office Building

Has earthquake-resistant structure, serves as a base of coping with disasters in large earthquakes, with the facilities such as independent power plant and emergency rescue space for helicopters (hovering space).
